Ideation Phase
Define the Problem Statements

Date	19 September 2022
Team ID	PNT2022TMID04717
Project Name	IoT based safety gadget for child safety monitoring & notification
Maximum Marks	2 Marks

Problem statement 1:

I am	I'm trying to	But	Because	Which makes me feel
A parent who often worried about safety of my children	Monitor my children for their safety	Having their live location through whatsapp is not satisfactory	it is not that much accurate and I should have a look whenever I want to have and so I may not aware when they face any kind of danger	to have more attention on them than my office work

Problem statement 2:

I am	I'm trying to	But	Because	Which makes me feel
a kid	inform my parents when I face any kind of danger	communicating my parents through call or text is not possible in some situations	when someone restricts me to communicate I wont be able to call and there may be lost signal sometimes	I'm not that much safer without my parents
